Subject: Rolling Knolls Landfill

Rich,

I contacted Melissa regarding negotiations between the Group and DOI (F&W). She promised to keep me informed, which I appreciate.

I also let Melissa know that EPA expects to issue one Record of Decision selecting a remedy for the entire landfill including the 30 or so acres on DOI property. It is therefore important for the Group and DOI to come to terms on a cleanup for the DOI property prior to the FS becoming final. EPA expects a final FS by the end of this calendar year.

Please feel free to call me if you wish to discuss this matter.

Sincerely,

Juan M. Fajardo
